ANNUAL RESULTS ANNOUNCEMENT FOR THE YEAR ENDED 31 DECEMBER 2017

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the "Directors") of Sino Splendid Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and no misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

The board (the "Board") of directors (the "Directors") of Sino Splendid Holdings Limited (the "Company") announces the audited consolidated results of the Company and its subsidiaries (collectively the "Group") for the year ended 31 December 2017 with comparative figures for the preceding financial year, are as follows:

Industry Review

Economists are of the view that Travel & Tourism is a key sector for economic development and job creation throughout the world. Despite the ever-increasing and unpredictable challenges such as geopolitical instability, health pandemics and to natural disasters, Travel & Tourism continued to show its resilience, contributing direct GDP growth and supporting additional jobs in the sector.

Asia is arguably more diverse, in the economic sense, than any other region, with each country offering a very different story to tell. Overall, economic performance in the Asia-Pacific region has been monotonous and the degree of economic impact has differed from sector to sector within the industry.

2017 has proven to be more challenging than the year before for the media and advertising business, with many organisations continuing to tighten their advertising budget or switching to alternative media that leverage on the internet. Print media continues to come under intense pressure. However, with TTG's strong brand and reputation, and its dedicated team of people, the group was able to create new opportunities and new revenue ideas.

Even with all odds and challenges in 2017, the group performed considerably well by finishing the year ahead of the budgeted full year profit. Full year budget for 2017 has taken into consideration of the overall business sentiment in the regional and global economies as well as the non-recurrent ATF project in 2017.

Resulting Impact on TTG Business and Performance in 2017

- A&P spend remained lackluster, characterised by a decrease in overall run-of-page (ROP) print advertising revenue from the main source markets, as businesses chose to be cautious amid the current subdued outlook.
- Foreign exchange losses: the strengthening of the Singapore dollars has resulted in forex losses in 2017 compared to the year before. Most of TTG's costs were in Singapore dollars whereas our revenue were mainly in American dollars.
- Online advertising continues to attract more interest from our advertisers as opposed to print advertising.
- Careful cost management on overheads, contribution from Special Projects and Events has helped with TTG's top and bottom line profits for the year.
- The overall dip in top line and bottom line in 2017 compared to 2016 was mainly due to the absence of the ATF management contract in 2017
